

Shine

[Shine MP3](#)

Sisters, do you remember who you are?
You are the water from the ocean
You are the light from the stars
It's there in every baby's cry, at the moment of their birth
The dream in every mother's heart, for peace on earth

Can you feel the fire down deep in your soul?
Feel it burning so bright?
Can you feel the darkness give way to the light?
Sing your song on high
Shine on Sister....Shine

The time has come to listen to the wisdom in our hearts
The heaviness of hatred has kept us in the dark
The time has come to heal the pain
For the truth to be revealed
Together we are stronger, only love is real

Can you feel the fire down deep in your soul?
Feel it burning so bright?
Can you feel the darkness give way to the light?
Sing your song divine
Shine on Sister...Shine

One heart...one truth...
One love... me and you...
We are rising up...we are shining, shining shining
Shining like the sun

Give way to the light...sing your song divine
Shine on Sister...Shine
One love...one truth
